

EU elections 9th June 2024

Cooperatives: Builders of a Sustainable Future

Themes

1

Cooperatives to be taken into account in business regulation

Relying on national implementation creates inequality

2

A cooperative provides a fair foundation for social and platform economies

Innovative collaborative entrepreneurship should be directed towards the cooperative form

3

The cooperative model facilitates the reconstruction of Ukraine

Alongside financing, active participation is needed

4

Cooperatives strengthen the private sector in EU external development projects

The cooperative model must be acknowledged in investment plans

5

Cooperative awareness must be strengthened in the EU Parliament

A new beginning for the Cooperative Network is important

Europe, the most cooperative continent in the world

- 250 000 cooperatives
- 163 million members
- 5,4 million jobs

For the needs of society and individuals

- Cooperatives maintain stability
- Cooperatives promote social cohesion
- Cooperatives create sustainable growth

To create a strong and unified EU

- Functioning internal market is important for businesses
- Competence and unity need improvement
- common-sense regulation is a prerequisite for business success
